Preface

The District wide Local Plan sets out policies and proposals to guide development in the Forest of Dean up to 2011. The Local Plan Review is published in three parts. Part One comprises the policies and proposals applicable to the whole of the District, or to large parts of the area. Part Two comprises individual settlement statements, including background information, a development strategy for each settlement based on the detailed application of the District Wide policies, and where appropriate, policies and proposals specific to individual settlements. Part Three comprises proposals maps for the settlements listed in part two. The proposal maps are Ordnance Survey based.

Part One of the Local Plan must be read in conjunction with the Settlement Policies and Proposals policies contained in Part Two and the Proposals Maps contained in Part Three.
