Summary

Who we are and what we do

The Boundary Commission for England is an independent and impartial non-departmental public body which is responsible for reviewing Parliamentary constituency boundaries in England.

The 2018 Review

We have the task of periodically reviewing the boundaries of all the Parliamentary constituencies in England. We are currently conducting a review on the basis of rules set by Parliament in 2011. The rules tell us that we must make recommendations for new Parliamentary constituency boundaries in September 2018. They also result in a significant reduction in the number of constituencies in England (from 533 to 501), and require that every constituency – apart from two specified exceptions – must have an electorate that is no smaller than 71,031 and no larger than 78,507.

Initial proposals

We published our initial proposals for the new Parliamentary constituency boundaries in England on 13 September 2016. Information about the proposed constituencies is now available on our website.

What is changing in the South West?

The South West has been allocated 53 constituencies – a reduction of two from the current number.

Our proposals leave nine of the 55 existing constituencies unchanged.

In North Somerset, both the existing constituencies are unchanged.

In Bristol, two of the four existing constituencies are unaltered, while the remaining two are changed only by the transfer of one ward.

In Swindon, we have made changes to realign constituency boundaries with the new ward boundaries.

More substantial change is required, however, in other parts of the region.

As it has not always been possible to allocate whole numbers of constituencies to individual counties, we have grouped some county and local authority areas into sub-regions. The number of constituencies allocated to each sub-region is determined by the electorate of the combined local authorities.

Consequently, it has been necessary to propose some constituencies that cross county or unitary authority boundaries.

Sub-region	Existing allocation	Proposed allocation
Bath and North East Somerset, and Somerset	7	7
Bristol	4	4
Cornwall, Devon, Isles of Scilly, Plymouth and Torbay	18	17
Bournemouth, Dorset, Poole and Wiltshire	13	12
Gloucestershire and South Gloucestershire	9	9
North Somerset	2	2
Swindon	2	2

We have proposed one constituency that contains electors from both Cornwall and Devon; it crosses the boundary in the north of the two counties, combining the towns of Bude, Bideford and Launceston. Another proposed constituency contains electors from both Dorset and Wiltshire, and combines the towns of Shaftesbury and Warminster.

Additionally, we propose that some electors from the north-east of the County of Somerset are combined with electors from Bath and North East Somerset in one constituency. We also propose that some electors from the south of the County of Gloucestershire are combined with electors from South Gloucestershire.

How to have your say

We are consulting on our initial proposals for a 12-week period, from 13 September 2016 to 5 December 2016. We encourage everyone to use this opportunity to help us shape the new constituencies – the more views we hear, the more informed our decisions will be when considering whether to revise our proposals.

Our website, at www.bce2018.org.uk has more information about how to respond as well as details of where and when we will be holding public hearings in your area. You can also follow us on Twitter @BCE2018 or using #2018boundaryreview.

1 What is the Boundary Commission for England?

- 1 The Boundary Commission for England (BCE) is an independent and impartial non-departmental public body which is required to review Parliamentary constituency boundaries in England. We conduct a review of all the constituencies in England every five years. Our role is to make recommendations to Parliament for new constituency boundaries.
- 2 The Chair of the Commission is the Speaker of the House of Commons, but by convention he does not participate in the review. The current Deputy Chair, Mrs Justice Patterson, and two further Commissioners, take decisions on proposals and recommendations for new constituency boundaries. Further information about the Commissioners can be found on our website.¹

You can find further information on our website, at www.bce2018.org.uk. You can also contact us with any general enquiries by emailing information@ boundarycommissionengland.gov.uk, or by calling 020 7276 1102.

2 Background to the 2018 Review

- 3 We are currently conducting a review of Parliamentary constituency boundaries on the basis of rules set by Parliament in 2011.² These rules require us to reduce the number of constituencies in the UK and make more equal the number of electors in each constituency. This report covers only the work of the Boundary Commission for England (there are separate Commissions for Northern Ireland, Scotland, and Wales) and, in particular, introduces our initial proposals for the South West.
- The rules set out in the legislation state that there will be 600 Parliamentary constituencies covering the UK - a reduction of 50 from the current number. This means that the number of constituencies in England must be reduced from 533 to 501. There are also other rules that the Commission has regard to when conducting the review - a full set of the rules can be found in our Guide to the 2018 Review³ published in summer 2016, but they are also summarised later in this chapter. Most significantly, the rules require every constituency we recommend (with the exception of two covering the Isle of Wight) to contain no fewer than 71,031 electors and no more than 78,507.
- This is a significant change to the old rules under which Parliamentary boundary reviews took place, in which achieving as close to the average number of electors in each constituency was an aim, but there was no statutory fixed permissible range. For example, in England, existing constituencies (drawn under the previous rules) currently range from 54,232 to 105,448 electors. Furthermore, the current constituencies were constructed under the last completed review, which relied on the data contained in the electoral registers for 2000 and applied the earlier version of the rules. Achieving a more even distribution of electors in every constituency across England, together with the reduction in the total number of constituencies, mean that a significant amount of change to the existing map of constituencies is inevitable.
- 6 Our Guide to the 2018 Review contains further detailed background information, and explains all the policies and procedures that we are following in conducting the review. We encourage anyone wishing to be involved in the review to read this document, which will give them a greater understanding of the rules and constraints placed on the Commission, especially if they are intending to comment on our initial proposals.

The rules in the legislation

- 7 As well as the primary rule that constituencies must have no fewer than 71,031 electors and no more than 78,507, the legislation also states that, when deciding on boundaries, the Commission may also take into account:
- special geographical considerations, including in particular the size, shape and accessibility of a constituency;
- local government boundaries as they existed on 7 May 2015;
- boundaries of existing constituencies; and
- any local ties that would be broken by changes in constituencies.
- In addition, in relation to local government boundaries in particular, it should be noted that we are obliged to take into account local government boundaries as they existed in May 2015, rather than any subsequent changes that may have been made (or are due to be made). Our initial proposals for the South West (and the accompanying maps) are therefore based on local government boundaries as they existed in May 2015. Our Guide to the 2018 Review outlines further our policy on how, and to what extent, we take into account local government boundaries. We have used the wards as at May 2015 of unitary authorities, and borough and district councils (in areas where there is also a county council) as the basic building blocks for our proposals.
- Although the first review under the new rules will unavoidably result in significant change, we have also taken into account the boundaries of existing constituencies so far as we can. We have tried to retain existing constituencies as part of our initial proposals wherever possible, as long as the other factors can also be satisfied. This, however, has proved difficult. Our initial proposals retain just above 16% of the existing constituencies in the South West - the remainder are new constituencies (although in a number of cases we have been able to limit the changes to existing constituencies, making only minor changes as necessary to enable us to comply with the rules).
- Our proposals are based on the nine regions used for European elections (though it should be clear that our work has no effect on European electoral matters, nor is it affected by the recent referendum result). This report relates to the South West. There are eight other separate reports containing our initial proposals for the other regions. You can find more details on our website. While this approach does not prevent anyone from making proposals to us that cross regional boundaries (for example, between the South West and the South East regions), very compelling reasons would need to be given to persuade the Commission to depart from the region-based approach. The Commission has previously consulted on the use of the regions as building blocks, and this was supported.

Timetable for our review

Stage one – development of initial proposals

- 2016. We published electorate data from December 2015 for each ward, local government authority, and existing constituency. The electorate data were provided by local authorities and the Office for National Statistics. These are available on our website⁴ and are the data that must be used throughout the remainder of the review process. The Commission has since then considered the factors outlined above and drawn up the initial proposals. We published our initial proposals for consultation for each of England's nine regions on 13 September 2016.
- 12 We ask people to be aware that, in publishing our initial proposals, we do so without suggesting that they are in some way definitive, or that they provide the 'right answer' - they are our starting point for consulting on the changes. We have taken into account the existing constituencies, local government boundaries, and geographical features to produce a set of constituencies that are within the statutory electorate range and that we consider to be the best balance between those factors at this point. What we do not yet have is evidence and intelligence of how our proposals reflect or break local community ties. One of the most important purposes of the consultation period is to seek evidence that will enable us to review our initial proposals.

Stage two – consultation on initial proposals

13 We are consulting on our initial proposals for 12 weeks, until 5 December 2016. Chapter 4 outlines how you can contribute during the consultation period. We are also hosting four public hearings in the South West, at which people can give their views direct to one of our Assistant Commissioners. Once the consultation has closed, the Commission will collate all the responses received, including records of the public hearings.

Stage three – consultation on representations received

14 We are required to publish all the responses we receive on our initial proposals. This publication will mark the start of a four-week 'secondary consultation' period, likely to take place in spring 2017. The purpose of the secondary consultation is for people to see what others have said in response to our initial proposals, and to make comments on their views, for example by countering an argument, or by supporting and reinforcing what others have said. You will be able to see all the comments on our website, and use the site to give us your views on what others have said.

⁴ At www.bce2018.org.uk

Stage four – development and publication of revised proposals

15 Once we have all the representations and comments from both the initial and secondary consultation periods, the Commission will analyse those representations and decide whether changes should be made to the initial proposals. If we decide that the evidence presented to us persuades us to change our initial proposals, then we must publish our revised proposals for the areas concerned, and consult on them for a further period of eight weeks. This is likely to be towards the end of 2017. When we consult on our revised proposals, there will be no further public hearings, nor will there be a repeat of the four-week period for commenting on the representations of others. You will be able to see all our revised proposals, and give us your views on them, on our website.

Stage five – development and publication of final report and recommendations

- on revised proposals, we will consider all the evidence received at this stage, and throughout the review, before determining our final recommendations. The recommendations will be set out in a published report to the Government, who will present it, without amendment, to Parliament on our behalf. The legislation states that we must report to the Government in September 2018. Further details about what the Government and Parliament then do with our recommendations are contained in our *Guide to the 2018 Review*.
- 17 Throughout each consultation we will be taking all reasonable steps to publicise our proposals, so that as many people as possible are aware of the consultation and can take the opportunity to contribute to our review of constituencies.

3 Initial proposals for the South West

- 18 The South West comprises the counties of Devon, Dorset, Gloucestershire, and Somerset (which are covered by a mix of district and county councils, and unitary authorities), and the unitary authorities of Bath and North East Somerset, Bristol, Cornwall, the Isles of Scilly, North Somerset, South Gloucestershire, Swindon, and Wiltshire.
- 19 The region currently has 55 constituencies. Of these, only 23 constituencies have electorates within 5% of the electoral quota. The electorates of 28 constituencies fall below the 5% limit, while the electorates of four fall above the upper limit. Our initial proposals for the South West are for 53 constituencies, a reduction of two.
- In seeking to produce initial proposals for the region in which 53 whole constituencies, each with an electorate within 5% of the electoral quota, could be proposed, we first considered whether, and how, the local authority areas could usefully be grouped into sub-regions. We were mindful of seeking to respect, where we could, the external boundaries of local authorities. Our approach when grouping local authority areas together in subregions was based on trying to respect county boundaries wherever possible and on achieving (where we could) obvious practical groupings such as those dictated in some part by the geography of the area.
- 21 Our division of the South West into sub-regions is a purely practical approach. We welcome counter-proposals from respondents to our consultation, based on other groupings of counties and unitary authorities, if the statutory factors can be better reflected in those counter-proposals.

- 22 If considered alone, the electorate of the County of Cornwall (including the electorate of the Isles of Scilly), at nearly 394.000, would result in an allocation of 5.27 constituencies to the county. While we are sensitive to the strength of feeling about the Cornish border, with its single land border, it is simply not possible to develop a proposal under which five whole constituencies, each with electorates within 5% of the electoral quota, are contained within the county boundary. Therefore we have included the counties of Cornwall and Devon (and the unitary authorities Plymouth and Torbay) in one sub-region, to which we have allocated 17 constituencies. Consequently, our proposals include one constituency that crosses the boundary between these two counties - under the rules within which we work, this is unavoidable.
- 23 We also found that neither the electorate of the County of Dorset (including the unitary authorities of Bournemouth and Poole) nor of the County of Wiltshire were such that we could develop proposals in which a whole number of constituencies with electorates within 5% of the electoral quota were contained within the respective county boundaries. By combining the areas in one sub-region to which we allocated 12 constituencies, it was possible to develop initial proposals in which the boundary between these two counties is crossed once.
- 24 The electorate of the county of Somerset is such that it could be considered on its own, with an allocation of five constituencies. Four of the five existing constituencies have an electorate within 5% of the electoral quota. Only a

minimal amount of change is required to ensure the electorates of all five constituencies are within 5% of the electoral quota. However, the unitary authority of Bath and North East Somerset has an electorate of just over 129,000, which is insufficient for the allocation of two constituencies. It is proposed to combine the county of Somerset with Bath and North East Somerset and to allocate seven constituencies in which the boundary between these two authorities is crossed once.

- Gloucestershire is such that it can be considered on its own, with an allocation of six constituencies. Three of the six existing constituencies have an electorate within 5% of the electoral quota. However, the unitary authority of South Gloucestershire has an electorate of just over 202,000, which is insufficient for the allocation of three constituencies. It is proposed to combine the County of Gloucestershire with South Gloucestershire and to allocate nine constituencies in which the boundary between the two authorities is crossed once.
- 26 The electorates of the unitary authorities of Bristol, North Somerset, and Swindon are such that they can be allocated four, two and two constituencies respectively, as they are at present. We have decided not to combine these authorities with any neighbouring authority.
- 27 The use of the term 'ward' throughout this document should be taken to mean electoral division in reference to the county unitary authorities of Cornwall and Wiltshire.

Initial proposals for the Cornwall and Devon sub-region

- 28 This sub-region comprises the County of Devon and the unitary authorities of Cornwall, Isles of Scilly, Plymouth, and Torbay. There are currently 18 constituencies in this sub-region. Of these, only seven (East Devon, Exeter, North Devon, St Austell and Newquay, Tiverton and Honiton, Torbay, and Torridge and West Devon) have electorates within 5% of the electoral quota. The remaining 11 constituencies have electorates below 5% of the electoral quota.
- 29 Our initial proposals allocate 17 constituencies to this sub-region, a reduction of one from the current arrangement.
- 30 We considered whether we could leave unchanged any of the seven existing constituencies that have electorates within 5% of the electoral quota. However, in order to develop initial proposals in which all the constituency electorates were within 5% of the electoral quota, and to facilitate the reduction in constituencies outlined above, it was necessary to alter the boundaries of three of the existing constituencies (East Devon, St Austell and Newquay, and Torridge and West Devon). The Tiverton and Honiton constituency has been altered to realign constituency boundaries with local government ward boundaries. Our initial proposals leave the existing constituencies of Exeter, North Devon, and Torbay unchanged.
- 31 As noted earlier, it is not possible to propose a whole number of constituencies with electorates within 5% of the electoral quota within the County of Cornwall

- and the Isles of Scilly. Therefore, a key consideration when developing proposals in this sub-region was identifying the most appropriate point at which to propose the necessary cross-county constituency between Cornwall and Devon. We consider that the most suitable point at which to cross the boundary is in the north of both counties, rather than traversing the River Tamar between Plymouth and Saltash, at which point the river, notwithstanding the bridge, presents a far more significant boundary between the two counties. We propose a constituency named Bideford, Bude and Launceston, which reflects the names of the three largest towns in the proposed constituency. The constituency stretches along the South West Coastal Path from Port Isaac Bay to Bideford Bar and is composed of nine wards (comprising 30,431 electors) that are currently included in the North Cornwall constituency and 18 wards (comprising 41,034 electors) that are currently in the Torridge and West Devon constituency. The A39 provides a strong communication link along the north coast of the constituency, linking Bideford in Devon with Bude and Camelford in Cornwall.
- 22 Due to the small electorate of the existing St Ives constituency, we propose that it is enlarged along the coast to incorporate the entirety of St Ives Bay and the town of Hayle, with which there are close geographic and communication links. Similarly, due to the small electorate of the existing Camborne and Redruth constituency, exacerbated by moving Hayle to the proposed St Ives constituency, we propose that it is also enlarged along the south coast to incorporate the towns of Falmouth and Penryn. Consequently, our proposed name for the constituency is Falmouth and Camborne.

- 33 To replace the loss of the town of Falmouth from the existing Truro and Falmouth constituency, we propose that the town of Newquay is included in a constituency that continues to cross the county from the northern coast to the southern coast. Our proposed name is Truro and Newquay.
- 34 To replace the loss of the town of Newquay from the existing St Austell and Newquay constituency, we propose the inclusion of nine wards from the existing North Cornwall constituency, including the towns of Bodmin and Wadebridge. Our proposed name is Bodmin and St Austell.
- 35 We propose that the existing South East Cornwall constituency is extended to include the wards of Altarnun, and Stokeclimsland, from the existing North Cornwall constituency. No change is proposed to the name of the constituency.
- 36 In Devon, our proposals do not alter the existing constituencies of Exeter, North Devon, and Torbay. Additionally, a number of our proposed constituencies in the south and east of the county are largely similar to the existing constituencies apart from the transfer of a small number of wards to ensure that electorates fall within 5% of the electoral quota. As a result, the major changes are confined to the Central Devon, South West Devon, and Torridge and West Devon constituencies.
- 37 In Plymouth, we propose that the Peverell ward is transferred from the existing constituency of Plymouth, Sutton and Devonport to the existing constituency of Plymouth, Moor View. To replace the Peverell ward, we propose the inclusion of the Plymstock Dunstone, and Plymstock Radford wards. We also propose that

the two constituencies wholly within the City of Plymouth be called respectively Plymouth North, and Plymouth South.

- 38 We propose that ten West Devon borough wards, including the town of Tavistock, which are currently in the Torridge and West Devon constituency, should be included in a constituency together with the remaining wards in the existing South West Devon constituency. We propose that the name of the constituency be Tavistock and Ivybridge.
- 39 We propose to add the two
 Teignbridge district wards of Ambrook,
 and Ipplepen to the existing Totnes
 constituency to bring its electorate
 within 5% of the electoral quota. To
 compensate for the loss of those two
 wards, we propose to transfer the two
 Teignbridge district wards of Chudleigh,
 and Kenn Valley from the existing Central
 Devon constituency to the Newton Abbot
 constituency.
- We decided that the only change made to the existing Tiverton and Honiton constituency would be to include all of the East Devon district ward of Feniton and Buckerell. Apart from this change to the existing East Devon constituency, there did not need to be any other change made. However, we noted that we had to include the five remaining Torridge district wards not included in the proposed Bideford, Bude and Launceston constituency in a revised Central Devon constituency, to compensate for transfer of the Teignbridge district wards of Chudleigh, and Kenn Valley to the Newton Abbot constituency. This would have meant that the Central Devon constituency would contain parts of five different districts. We considered

that this was unnecessary and decided to include the East Devon district ward of Exe Valley in the proposed East Devon constituency. This means that the proposed Central Devon constituency will continue to contain parts of four Devon districts (Mid Devon, Teignbridge, Torridge, and West Devon).

Initial proposals for the Dorset and Wiltshire sub-region

- 41 There are currently 13 constituencies in the sub-region comprising the County of Dorset and the unitary authorities of Bournemouth, Poole, and Wiltshire. Four of these constituencies have electorates within 5% of the electoral quota; the electorates of the remaining nine constituencies fall below the 5% limit.
- 42 Our initial proposals allocate 12 constituencies to the sub-region, a reduction of one from the current arrangement.
- 43 We considered whether we could leave unchanged any of the four constituencies that have electorates within 5% of the electoral quota. However, in order to develop proposals in which all the constituency electorates are within 5% of the electoral quota, and to facilitate the reduction in allocated constituencies by one, it was decided to alter the boundaries of all four constituencies.
- 44 The West Dorset constituency required changes to realign constituency boundaries with local government ward boundaries. We propose to include all of the divided West Dorset district ward of Puddletown wholly within the West Dorset constituency, and to include the whole of

the divided West Dorset district ward of Broadmayne & Crossways in our proposed South Dorset constituency, thereby providing a connection between the Weymouth and Portland borough part of the constituency and the Purbeck district part. After these changes, the electorate of the South Dorset constituency would still not be within 5% of the electoral quota. We propose to include the three Purbeck district wards of Bere Regis, St. Martin, and Wareham in the South Dorset constituency.

- 45 We noted that no change needed to be made to the existing Bournemouth East constituency, and only minor changes were required to the existing Bournemouth West, Christchurch, and Poole constituencies to bring the electorates within 5% of the electoral quota. However, to do so would mean that the changes required to be made to the existing Mid Dorset and North Poole constituency would result in that constituency containing parts of four districts (East Dorset, North Dorset, Poole, and Purbeck). We considered that this was unnecessary and decided to propose greater change.
- 46 We propose that Christchurch borough is included in a constituency with five wards from the north of Bournemouth borough. We propose that this constituency be named Bournemouth North and Christchurch. We propose a Bournemouth South constituency containing ten wards from the south of the borough. We propose that the whole of the Poole borough wards of Alderney, Branksome East, and Branksome West, which are divided between the

- existing Bournemouth West, and Poole constituencies, be wholly included in our proposed Poole constituency.
- 47 We propose a Broadstone, Ferndown and Kinson constituency containing three wards from Bournemouth borough, four wards from East Dorset district, and five wards from Poole borough. As a result of this change, we propose a Blandford and Wimborne constituency, containing 12 wards from East Dorset district, including the town of Wimborne Minster, seven wards from North Dorset district, including the town of Blandford Forum, and three wards from Purbeck district.
- 48 The remaining 12 North Dorset district wards, including the town of Shaftesbury, are included in a cross-county boundary constituency with 12 wards from Wiltshire unitary authority, including the towns of Warminster and Westbury. Our proposed name for the constituency is Warminster and Shaftesbury.
- 49 We propose to increase the electorate of the existing Salisbury constituency by including all of the two divided Wiltshire wards of Bulford, Allington and Figheldean, and Fovant and Chalke Valley, and to include the Durrington and Larkhill ward, which is in the existing Devizes constituency.
- **50** We propose to include the five wards comprising the town of Calne in the Devizes constituency to bring the electorate within 5% of the electoral quota. We noted that Calne had previously been included in a Devizes constituency.

- transfer of Calne from the existing North Wiltshire constituency, we propose to add the eight wards comprising the town of Chippenham, together with the two wards of Corsham Pickwick, and Corsham Town. We noted that this will divide the town of Corsham between constituencies, but the Corsham Without and Box Hill ward cannot be included without making further changes to the neighbouring constituencies. Our proposed name for the constituency is Chippenham.
- 52 The remaining 21 Wiltshire wards, including the towns of Bradford-on-Avon, Melksham, and Trowbridge, form a constituency, for which our proposed name is Trowbridge.

Initial proposals for the Swindon sub-region

- 53 There are currently two constituencies in this sub-region comprising the unitary authority of Swindon. Only the North Swindon constituency has an electorate within 5% of the electoral quota. We were unable to leave this constituency unchanged, however, due to changes being required to the Swindon South constituency.
- 54 We noted that two wards in Swindon borough are divided between the existing North Swindon, and South Swindon constituencies. The majority of both wards are in the North Swindon constituency. We noted that to include the divided Mannington and Western ward wholly in Swindon North would isolate the two wards of Lydiard and Freshbrook, and Shaw from the remainder of the South Swindon constituency. Therefore, we

propose to include the whole of the Mannington and Western ward in the proposed South Swindon constituency and the whole of the Covingham and Dorcan ward in the proposed North Swindon constituency. This results in both the South Swindon and North Swindon constituencies having electorates within 5% of the electoral quota.

Initial proposals for Gloucestershire and South Gloucestershire sub-region

- within this sub-region, which covers the County of Gloucestershire and the unitary authority of South Gloucestershire. Three of those constituencies have electorates within 5% of the electoral quota; the electorates of two constituencies fall above the 5% limit, and the electorates of the remaining four fall below the 5% limit. Our initial proposals allocate nine constituencies to the sub-region.
- leave unchanged any of the three constituencies that have electorates within 5% of the electoral quota. However, in order to develop proposals in which all the constituency electorates are within 5% of the electoral, it was necessary to alter the boundaries of all nine of the existing constituencies.
- of Dean constituency is below the 5% limit. Extending this constituency to meet the electoral quota is particularly problematic given the geographical constraints created by the border with Wales and the regional border to the north and west, the River Severn to the east and the desirability of retaining Gloucester city centre

within a single constituency. Adding the Tewkesbury borough ward of Coombe Hill brings the electorate within the 5% limit. Our proposed name for this constituency is West Gloucestershire.

- We noted that moving the Coombe Hill ward from the existing Tewkesbury constituency means that that constituency would have two detached parts. We propose to include the Cheltenham borough ward of Springbank in the Tewkesbury constituency, so as to provide a link to both parts of the constituency. As this would result in a Tewkesbury constituency with an electorate above the 5% limit, we propose that the Gloucester city ward of Longlevens be included in the Gloucester constituency. The transfer of the Springbank ward to the Tewkesbury constituency is the only change we propose to the existing Cheltenham constituency.
- 59 We noted that the electorate of the City of Gloucester was too large to form a single constituency. The electorate of the existing constituency is above the 5% limit, so changes have to be made. As mentioned above, we propose the inclusion of the Longlevens ward in the Gloucester constituency and to transfer the two Gloucester city wards of Quedgeley Fieldcourt and Quedgeley Severn Vale to the Stroud constituency.
- 60 Due to the small electorate of the existing Kingswood constituency, we propose to include in it the South Gloucestershire district ward of Boyd Valley. Similarly due to the small electorate of the existing Filton and Bradley Stoke constituency, we propose to include in it the South Gloucestershire district ward of Frampton Cotterell.

- Valley, and Frampton Cotterell in other constituencies, the existing Thornbury and Yate constituency needs to gain electors from Stroud district. To bring this constituency within 5% of the electoral quota, we propose to include five Stroud district wards, including the towns of Cam and Dursley, from the existing Stroud constituency, and two wards (Kingswood and Wotton-under-Edge) from the existing The Cotswolds constituency. As a result of these changes, our proposed name for this constituency is Dursley, Thornbury and Yate.
- district ward of Nailsworth in The
 Cotswolds constituency to ensure that it
 is within 5% of the electoral quota. We
 also propose that the remaining 21 Stroud
 district wards are included in our proposed
 Stroud constituency together with the
 Gloucester city wards of Quedgeley
 Fieldcourt and Quedgeley Severn Vale.

Initial proposals for the Bristol sub-region

- 63 There are currently four constituencies within this sub-region, which covers the unitary authority of Bristol. Two of these have electorates within 5% of the electoral quota (Bristol South and Bristol North West). When developing the initial proposals, we were able to leave the boundaries of these two constituencies unchanged.
- 64 We propose minimal change to the remaining two constituencies, to ensure that the electorates of both fall within 5% of the electoral quota. At present, the electorate of the Bristol East constituency

falls below the lower 5% limit, while that of Bristol West constituency is above the upper limit. We therefore propose that the boundary between the two constituencies is amended and that Bristol East extends to include the Easton ward that is currently located in the Bristol West constituency. We do not propose any further change.

Initial proposals for the North Somerset sub-region

65 There are currently two constituencies within this sub-region, which covers the unitary authority of North Somerset. These are North Somerset and Weston-super-Mare, both of which have electorates within 5% of the electoral quota. We do not consider it necessary to propose any change.

Initial proposals for the Somerset, and Bath and North East Somerset sub-region

constituencies in the sub-region comprising the County of Somerset and the unitary authority of Bath and North East Somerset, four of which have an electorate within 5% of the electoral quota. Two of the existing constituencies (i.e. those of Bath, and North East Somerset) have electorates that fall below the lower 5% limit, and one of the existing constituencies (Bridgwater and West Somerset) has an electorate that is above the upper 5% limit. We do not propose to alter the allocation of seven constituencies for this sub-region.

- 67 It is possible to create five constituencies wholly within the County of Somerset, each with an electorate within 5% of the electoral quota, with minimal change to the existing constituencies. However, that would leave Bath and North East Somerset, which is too small to continue to form two constituencies.
- Bath constituency by including the three Bath and North East Somerset district wards of Bathavon North, Bathavon South, and Peasedown. We propose extending the existing North East Somerset constituency by including six Mendip district wards, including the town of Shepton Mallet. Four of these wards are in the existing Wells constituency, and two are in the existing Somerton and Frome constituency.
- 69 We propose to include the whole of the two divided Sedgemoor district wards of Highbridge and Burnham Marine, and Knoll, in the Wells constituency, together with the two Sedgemoor district wards of Huntspill and Pawlett, and Puriton and Woolavington from the existing Bridgwater and West Somerset constituency. No other changes are proposed for the Bridgwater and West Somerset, Somerton and Frome, and Wells constituencies. We are able to leave the boundaries of the Taunton Deane, and Yeovil constituencies unchanged.

4 How to have your say

- 70 We are consulting on our initial proposals for a 12-week period, from 13 September 2016 to 5 December 2016. We encourage everyone to give us their views on our proposals for their area the more public views we hear and the more local information that is provided, the more informed our decisions will be when analysing all the views we have received.
- 71 On our interactive consultation website, at www.bce2018.org.uk you can see what constituency you will be in under our proposals, and compare it with your existing constituency and local government boundaries. You can also easily submit your views on our proposals.
- 72 When making comments on our initial proposals, we ask people to bear in mind the tight constraints placed on the Commission by the rules set by Parliament, discussed in Chapter 2 and in our *Guide to the 2018 Review*. Most importantly, in the South West:
- we cannot recommend constituencies that have electorates that contain more than 78,507 or fewer than 71,031 electors:
- we are basing our initial proposals on local government ward boundaries (from May 2015) as the building blocks of constituencies – our view is that, in the absence of exceptional and compelling circumstances, it would not be appropriate to divide wards in cases where it is possible to construct constituencies that meet the electorate rules without doing so; and

- we have constructed constituencies within regions, so as not to cross regional boundaries – compelling reasons would need to be given to persuade us that we should depart from this approach.
- 73 These issues mean that we encourage people who are making a comment about their local area to bear in mind any knock-on effects that might result from their suggestions. The Commission must look at the recommendations for new constituencies across the whole region (and, indeed, across England). What may be a better solution for one location may have undesirable consequences for others. We therefore ask everyone wishing to respond to our consultation to bear in mind the impact of their counter-proposals on neighbouring constituencies, and on those further afield across the region.

How can you give us your views?

74 Views can be given to the Commission either in writing or in person (oral representations). We encourage everyone who wishes to comment on our proposals in writing to do so through our interactive consultation website, at www.bce2018.org.uk – you will find all the details you need and be able to comment directly through the website. We also welcome oral representations at one of a series of public hearings we are conducting during the consultation period. People are welcome to both attend a hearing and submit comments through our website if they choose to.

Written representations

- 75 As stated above, we strongly encourage everyone to make use of our consultation website, at www.bce2018.org.uk, when responding to our consultation. The website allows you to explore the map of our proposals and get further data, including the electorate sizes of every ward and polling district. You can also upload text or data files you may have previously prepared setting out your views.
- 76 We encourage everyone, before submitting a representation, to read our approach to protecting and using your personal details (available at www.bce2018.org.uk). In particular, respondents should remember that we

are obliged to publish all the comments we receive on our initial proposals. As this is a public consultation, we publish respondents' names and addresses, alongside their comments.

Public hearings

77 The Commission will be hosting public hearings across England. In the South West we will be hosting four public hearings during the consultation period. Our website (www.bce2018.org.uk) has more details of these hearings, and an opportunity to register to attend and give us your views in person. The table below shows the locations and dates of the hearings in the South West.

Town	Location	Dates
Exeter	Mercure Exeter Rougemont Hotel, Queen Street, Exeter EX4 3SP	Monday 7 – Tuesday 8 November 2016
Truro	New County Hall, Treyew Rd, Truro, Cornwall TR1 3AY	Thursday 10 - Friday 11 November 2016
Poole	RNLI College, West Quay Road, Poole BH15 1HZ	Monday 14 - Tuesday 15 November 2016
Bristol	City Hall, College Green, Bristol BS1 5TR	Thursday 17 - Friday 18 November 2016

- **78** The purpose of the hearings is for people to have an opportunity to put their views on our proposals directly to an Assistant Commissioner who will chair the hearings and subsequently assist the Commission in the analysis of all the evidence received in the region. The hearings differ from the way we used to conduct 'local inquiries' in past reviews - these were much more judicial in style, and people were allowed to cross-examine each other. The legislation that Parliament introduced specifically rules out such inquiries, specifying instead that we host 'public hearings', which are intended purely as a way for people to make representations orally, directly to representatives of the Commission, as well as to provide an opportunity for the Commission to explain its proposals.
- 79 It is important to stress that all representations, whether they have been made through our website, in person at a hearing, or sent to us in writing, will be given equal consideration by the Commission. Therefore it does not matter if you are unable to attend or speak at a public hearing even after the last public hearing in the South West has finished, you will still have until 5 December 2016 to submit your views to us.
- 80 You can find more information about public hearings, and can register to attend, on our website at www.bce2018.org.uk, or by phoning 020 7276 1102.

What do we want views on?

- 81 We would like particularly to ask two things of people responding to our consultation. First, if you support our proposals, please tell us so. Past experience suggests that too often people who are happy with our proposals do not respond in support, while those who object to them do respond to make their points. That can give a rather distorted view of the balance of public support or objection to proposals, and those who in fact support our initial proposals may then be disappointed if those proposals are subsequently revised in light of the consultation responses. Second, if you are considering objecting to our proposals, do please use the resources (such as maps and electorate figures) available on our website and at the places of deposit to put forward counter-proposals which are in accordance with the rules to which we are working.
- everyone to have their say on our initial proposals and, in doing so, to become involved in drawing the map of new Parliamentary constituencies. The more views and information we get as a result of our initial proposals and through the subsequent consultation phases, the more informed our consideration in developing those proposals will be, and the better we will be able to reflect the public's views in the final recommendations we present in 2018.

Annex A: Initial proposals for constituencies, including wards and electorates

Glossary

Assessor Assistant Commissioner	Statutorily appointed technical adviser to the BCE, being either the Registrar General for England and Wales or the Director General of Ordnance Survey. Independent person appointed at the request of the BCE to assist it with the discharge of its	Public hearing	Formal opportunity in a given area for people to make oral representations, chaired by an Assistant Commissioner. In each region of England there may be no fewer than two and no more than five hearings, and each may last a maximum of two days.
Borough constituency (abbreviated to BC)	Parliamentary constituency containing a predominantly urban area.	Representations	The views provided by an individual, group or organisation to the BCE on its initial or revised proposals, either for or against, including counter-proposals and
County constituency (abbreviated to CC)	Parliamentary constituency containing more than a small rural element.	Review date	petitions. Proposals must be based on
Designation	Classification as either a borough constituency or as a county constituency.		the numbers of electors on the electoral registers on this date. Defined in the 2011 Act as the date two years and ten months
Electorate	The number of registered Parliamentary electors in a given area.		before the final report is to be submitted (i.e. 1 December 2015 for the review that is to conclude with a final report by
(Statutory) Electorate range	The statutory rule that requires the electorate of every		1 October 2018).
	constituency (as at the review date) to be within 5% of the UK	Revised proposals	The initial proposals as subsequently revised.
Final recommendations	electoral quota. The recommendations submitted in a formal final report to Parliament at the end of a review. They may – or may	Rules	The statutory criteria for Parliamentary constituencies under Schedule 2 to the Parliamentary Constituencies Act 1986 (as amended).
	not – have been revised since the initial proposals in any given area.	UK electoral quota	The average number of electors in a constituency, found by dividing the total
Initial proposals	First formal proposals published by the BCE during the review for public consultation.		electorate of the UK (less that of the four specific 'protected' constituencies) by 596.
Periodical report	Report to Parliament following a general review of Parliamentary constituencies.	Unitary authority	An area where there is only one tier of local council (above any parish or town council).
Places of deposit	In each constituency the Commission will make available hard copies of its initial proposals (including report and maps). The places of deposit		Contrasted with those 'shire district' areas that have two tiers (i.e. both a non-metropolitan county council and a district/borough/city council).
	where the public may inspect the proposals are usually the offices of the relevant local authority, although other public places such as libraries may be used. The Commission will publish a full list of places of deposit on its website.
